The house of commons passed the second reading of the Itlah home rule bill today. The vote was 24s to 94.

Mr. Lloyd eGorge said:

"I want to say this to our American friends: Wir. de Valera is putting forth the same daim in exactly the same language as Mr. Jofferson Davis, and the ancestors of some of the men who voted for that motion in the senate the other day fought to the death against conceding to the southern states of America the very demand their descendants are supporting for Ireland. The anseptance of that demand we will never concede. It is a demand which if persisted in, will lead to exactly the same measures of repression as in the southern states of America we claim nothing more than the Linied States vialmed for themselves and we will stand no less.
